WASHINGTON CITY.

Rumored General Attack on the Administration—Schurz and Key to be Sacrificed.

CHICAGO, March 23.—The *Tribune's* Washington special says: Those senators who should be well informed are discussing what is asserted will soon be a change in the cabinet of at least two persons. The reasons for changes are fire all along the line against the administration which seems most certainly will follow the speech of Howe on Louisiana affairs Monday. The general understanding among senators is that in the speeches at the beginning of the new departure both the avowed and the silent opponents of the administration, who certainly constitute a majority of the party in the senate, will probably array themselves against the executive. To prevent this attack, and as a conciliatory measure, the story goes that the president is thinking of requesting Schurz and Key to retire from the cabinet. Careful inquiry to-night fails to confirm this story. Some senators have heard it, and one or two incline to give it credence. There is no doubt that the appeal in the Anderson case in New Orleans will be favorable to Anderson, and Anderson's friends claim that he will then be appointed collector of the port. However, Packard has not abandoned hope.

Ruling out Ex-Members.

NEW YORK, March 23.—The *Herald's* Washington special says: The speaker and committee on rules have under consideration the revocation of privilege of access not given to ex representatives. This is occasioned by the discovery that many of these men, as well as ex-senators exercise their right to go in to the house for the purpose of acting as lobbyists.

The Utah Governorship.

NEW YORK, March 23.—The *World's* Washington special says: Gov. Emery, of Utah, arrived here last evening and to-day had a long conversation with the president and attorney general. There is strong talk of the governor being removed and his place filled by the appointment of E. P. Connor.

Death of Mr. Allison.

WASHINGTON, March 23.—John Allison, Register of the Treasury, died this morning, of apoplexy.

Army Reorganization.

WASHINGTON, Dec. 23.—The committee of 13, appointed by the last Democratic house caucus to revise the army reorganization bill, have completed their work and will report next week. The bill is essentially the same as that heretofore provided by Representative Banning, and which he proposes to make a party measure.

Ugly Rumors.

The *Tribune's* Washington special says: The death of Judge Leonard, in Cuba, will be investigated,—rumors being afloat, that he was poisoned by Cubans.

On the Question of Abolishing Surveyor Generals.

WASHINGTON, March 23.—Commissioner Williamson, of the land office, before the house committee on public lands, to-day gave his views on the proposed abolition of surveyor generals. He said, under the present system, the expense of superintending the expenditure of moneys for the public survey was 60 per cent. of the amount appropriated. He knew cases where contractors for large amounts had made fictitious lines while sitting in their tents. Then then came to Washington to show maps with lines laid down, swear surveys have been made and get money for their contracts. Commissioner Williamson has prepared a bill to remedy this evil. It provides for the abolition of the contract system, and for having the work done by surveyors appointed by the office, with a commissioner general in Washington.

Salient Points in the McGarrahan Case.

WASHINGTON, March 23.—Senate committee on public lands to-day resumed the investigation which has grown out of the memorial of Wm. McGarrahan, praying the enactment of a law to supply certain omissions in the record of his alleged patent for New Idria quicksilver mine in California. Ex-Congressman Eldridge of Missouri made a sworn statement that so far as his name is concerned the alleged list of outside stockholders in the Panoche Grand Co. is atrociously false, and denounced as wicked slanders any and all imputations or insinuations that his support of the claim in congress was influenced by any motive whatever except a sense of official duty. Eldridge referred to the printed book of letters, etc., which he understood the New Idria counsel had been industriously circulating, which in its head lines, etc., seemed to reflect upon him, whereupon discussion arose between counsel as to which side was responsible for the publication of the alleged list of outside stockholders. General Sherman was called and his attention directed to a passage in his memoirs in which he mentions seeing Vincente Gomez and Gomez's sister in a private theatrical performance in California in early times in the characters of "Adam and Eve," although not appropriately costumed. [Laughter]. Gen. Sherman said Gomez was received in good society and was the clerk of Michel Torrens Mexican governor of California. Witness did not know at the time that Gomez had any claim for a land grant.

On the Best of Terms.

Ellis Spear, commissioner of patents, being questioned in relation to the rumor that the president had requested his resignation and he had tendered it, to take effect April 1st, says there is no truth in the report, and, as far as he knows, he is on the best of terms with the president and the secretary of the treasury.

Conscience Money.

The secretary of the treasury, received from Cincinnati three $1,000 coupon bonds, accompanied by a memorandum that the amount should be credited to the treasury of the United States. The bonds have been so thoroughly canceled that the serial numbers cannot be ascertained. The amount will be credited to the conscience fund.

Bill Concerning Trade Dollars.

WASHINGTON, March 23.—The full text of the trade dollar section of the bill reported from Alexander H. Stephens' committee yesterday is as follows:

Section 5. That the trade dollar shall hereafter be coined exclusively for foreign trade and limited to the amount of $700,000 per month. When coined it shall not be permitted to be taken from the mints except upon a receipt given for exportation, under such regulations as the secretary of the treasury shall prescribe.

River and Harbor Bill.

The house committee on commerce have inserted in the river and harbor appropriation bill an item of $30,000 for continuing the improvement of Wilmington harbor. They have, however, agreed to hear argument from Wiggington in advocacy of increasing this allowance, and also in favor of providing for surveys with a view to improvements at San Buenaventura, San Luis Obispo and Santa Barbara. The committee have not yet prepared the bill in regard to surveys.

Private Relief Bill.

The house yesterday passed Page's bill authorizing the secretary of the treasury to pay Andrew J. Worth, of San Francisco $2,883 in full of all demands against the government on account of funds received by the collector of customs from a judgment of condemnation against the schooner *Caroline E. Foote*. It appears that the vessel was sold under an execution and the money paid to the collector of customs pending action on application to the secretary of the treasury for a remission of the forfeiture. Secretary Chase, in 1864, issued his warrant of remission, but Worth did not hear of it for twelve years, and then found that most of the money had been promptly paid to the clerk of the court for costs and the three customs officers for their share as informers. The remainder had been covered into the U. S. treasury, and the act of congress is therefore necessary to release it.

Working Hours in the Navy.

WASHINGTON, March 23.—A navy department circular announces the working hours in the navy yards and shore stations will be from March 21st to September 21st from 7 A. M. to 6 P. M.; from September 22d to March 20th, from 7:40 A. M. to 4:30 P. M., with the usual intermission of one hour for dinner. The department will contract for the labor of mechanics, foremen, leading men and laborers, on the basis of 8 hours a day. Workmen laboring 10 hours will receive proportionate increase of wages.

Consideration of the Bill to Abolish Surveyor Generals.

WASHINGTON, March 24.—The house public lands committee yesterday heard arguments concerning the bill introduced by Price of Iowa, to provide, as its title asserts, for more economical and accurate surveys of public lands. Major Powell first addressed the committee confining his remarks to the necessity of classifying the public lands so as to avoid the expense of subdivision surveys of lands not susceptible of cultivation.

Representative Page then made an argument to show that the enactment of this bill would tend to a dangerous centralization; that it is not in the interest of economy, will retard the settlement of the public domain, quintriple the expenses of public surveys and harshly discriminate in favor of the rich and against the poor. He said, in the first place it abolishes the office of surveyor general, and provides for the removal of all maps, records, etc., to Washington. This would be a great hardship to the people of the Pacific coast. It would require them to travel 3,000 miles and expend large sums of money to perfect or protect their titles. Agricultural settlers would be at the mercy of ranch claimants. Poor miners would often be unable to patent small mining claims. Litigation would be greatly increased as to the more valuable mines. Fraudulent surveys would abound, and great and unnecessary expense and delay would be experienced by deputy surveyors in re-establishing obliterated land marks, these records being daily needed for reference by settlers who are unable to employ attorneys to examine them, and by surveys in the field. He argued that it would be unwise to abolish the contract system and to have the government maintain an army of surveyors and assistants, involving the purchase of outfits and the expenditure sufficient to complete, under the existing laws, a large portion of the public surveys.

Representative Davis confirmed what his colleague had said, and read several corroborative letters received by him from California earnestly opposing the proposed removal of the records.

Commissioner Williamson, of the general land office, who was present expressed himself strongly in favor of the general objects of the bill, but advised that it be amended so as to provide that archives relating to surveys be turned over to the governors of the several states and territories, and thus retained for public inspection within the present districts. He referred to his last annual report to show that the maintenance of the present system of surveyor generals' offices during the current fiscal year will cost about $120,000, while only $30,000 are expended in the public surveys, being at the rate of 43 cents for superintending the expenditure of each dollar. He said one surveyor general, employing forty clerks and at a cost not exceeding $50,000, could even under the present contract system perform the work in a more satisfactory manner. He believed, however, that the contract system should be immediately abolished and all surveys made by a regular corps of assistants employed at fixed salaries. This would ensure better work and at less cost. In fact he claimed that the passage of the bill would effect an annual saving to the government of at least $100,000. The committee took the subject into consideration, and will probably adopt Commissioner Williamson's recommendation.

Postal Changes.

WASHINGTON, March 24.—Established: Wapinito, Wasco county, Oregon, Jerry Young, postmaster.

The Anticipated Attack on Hayes.

NEW YORK, March 24.—The *World's* Washington special, speaking of Howe's probable attack on the administration, says Conkling, it is again reported, will make a speech reviewing the first year of Hayes' administration and denouncing it with great bitterness. It is the intention of the anti-Hayes party to force the southern Democrats to defend the president, in the hope that such defense would embitter Northern Republicans. Democratic senators are very generally willing to let the handful of administration Republicans in the senate reply to the attacks on Hayes.

New Postal Regulation.

WASHINGTON, March 24.—The postmaster general has issued an order amending the regulation of the department governing the transmission of letters, which is very important in its bearing, inasmuch as it overrules a long established practice in the department. Any matter in print which may be transmitted within an enclosure may also be transmitted at the same rate if printed upon the wrapper or envelope. This includes business cards, directions for returning, and any printed matter on outside of wrapper or envelope. Postmasters are instructed not to regard requests to return such matter unless stamps to pay return postage are deposited.

CENTRAL AND SOUTH AMERICA.

Colombian Finances.

NEW YORK, March 24.—The steamer arrived from Panama, bringing dates to the 16th. The national congress of Colombia opened at Bogata February 1st. According to the report of the secretary the revenue of the nation for the fiscal year amounted to $3,852,933. The postoffice department produced $3,502, and telegraph $12,691. Custom house revenues fell off considerably during the year on account of civil war.

Political.

Political matters are quiet throughout the republic.

The German Fleet.

The German fleet consisting of the *Elizabeth*, *Ariadne* and *Leipsig* left the port of Corinto on the 14th.

CANADA.

New Elections.

QUEBEC, March 23.—The legislature is dissolved and new elections ordered.

Failure.

MONTREAL, March 23.—William Henderson, lumber merchant, has failed, liabilities $25,000.

Snow Storm.

MONTREAL, March 24.—Heavy snow storm has been raging all day; freezing hard.

WEST INDIES.

The San Domingo Revolution.

ST. THOMAS, March 23.—The news from San Domingo says the provisional government exists, General Cesareo Getilermo presiding. A new president will be elected. The revolution was the cause of immense damage to property. The distress prevailing will probably be a safeguard against fresh risings for some time.

BRITISH COLUMBIA.

Mining News.

VICTORIA, March 24.—A 20 stamp quartz mill for the British Columbia Co. came by the *Panama* from San Francisco, yesterday.

The Fisheries.

The Delta Canning Co., for operations at the lower Fraser fisheries, has been formed.

A Dry Day.

No public house is allowed to remain open on election days; neither can liquor be sold or given away under heavy penalties.

Sale of a Wreck.

The Hadson Bay Co.'s bark *Lady Lampson*, recently wrecked will be sold at auction on Wednesday.

Proposed Terminus.

Admiral DeHorsey's report as to the best terminus for the Canada overland railway is published by the *Colonist* to-day. It condemns Burrard's Inlet and Skeena river as harbors, and strongly favors the adoption of the Bute Inlet route, with Esquimalt as the terminus.

THE EASTERN QUESTION.

Warlike Notes.

LONDON, March 23.—The government has purchased from Sir William Armstrong four 100-ton guns at a cost of $80,000 each, and is negotiating for a number of smaller weapons identical with those already in service. White, Worth & Co. have accepted large contracts for iron gun carriages, to be completed at an early date. Woolwich arsenal is rapidly preparing wagons for transport service. Several other contracts for army stores are in course of completion, notably one for a large number of pack-saddles. Defries & Co. are executing a large order for hospital ware.

LONDON, March 22.—The landing of a force on the Asiatic side of the Sea of Marmora has unquestionably been considered by the government. Railway material to be laid on a parallel line with the Bosporus has been purchased.

Torpedo Boats.

LONDON, March 23.—The order for new torpedo vessels for the navy have been distributed among various shipbuilders, principally on the Thames. Torpedo sinkers average weight, eleven hundred pounds. They are being stowed away in various parts of the royal arsenal at Woolwich, convenient for shipment to stations at home and abroad.

The Russians are having one hundred torpedo boats built, on the model of the one purchased in England, but no part of the order has come to this country, as international complications might hinder its fulfillment.

Deadly Typhus.

The mortality among the Russians in Bulgaria is very great, principally from fever. In Constantinople the typhus is increasing.

Time of Meeting of the Congress.

VIENNA, March 23.—In the Hungarian delegation to-day, Count Andrassy said it was intended the congress should meet at the end of March, but meanwhile some preliminary questions have arisen between England and Russia, and it is impossible now to state the date of the meeting with certainty.

Disinfecting the Battlefields.

The Austrian delegation referred to the government a petition to take steps by an international understanding for disinfecting the late battlefields and arresting the danger which threatens the health of Europe.

CONSTANTINOPLE, March 23.—The sanitary commission has arrived at Erzeroum. At Tiflis they found 20,000 corpses buried two feet under ground, frozen but not decomposed. The commission is deliberating whether to cremate the corpses or use quick lime.

Reorganization of European Turkey.

LONDON, March 23.—The *Times*, in an editorial, says the treaty proposes a new state in the Balkan peninsula which would dwarf all others and which, supported by external influence, would inevitably strangle all other interests. New Bulgaria would extend considerably beyond the limits within which the Slav population is predominant; wherever the presumed limits of such preponderance were not coincident with a good geographical boundary, the boundary line has been pushed forward to the injury of other populations and states. The general result is that the new principality would occupy the whole central mass of the peninsula, forming a state in comparison with which Servia and Montenegro would be insignificant and reducing the remaining possessions of Turkey to an absurdity. Europe cannot avoid very grave doubts whether such an arrangement would be either just or exempt from the danger of great future disturbances.

Turks Still in Arms.

CONSTANTINOPLE, March 23.—Fifty thousand Turkish troops are now encamped in the plain of Buyukdere, and there are fifty battalions on the lines defending Constantinople.

A Point not Settled.

LONDON, March 23.—The British cabinet requires a declaration from Russia that the communication of the instrument of peace to the powers is equivalent to its formal presentation to the congress. The Russian cabinet, however, consider that by making the above mentioned communication it fulfilled international duties and is less inclined to agree to a special presentation to the congress, inasmuch as by making known all the conditions of peace it affords each power the opportunity of making the separate provisions of the treaty subject to European deliberation. An understanding upon this point has not yet been reached. Until it is decided the fate of the congress is uncertain.

The Austrian Budget.

VIENNA, March 23.—The lower house to-day adopted the whole budget.

German Interests Not Affected.

BERLIN, March 24.—The North German *Gazette* says the treaty does not affect German interests.

Movements of Notables.

CONSTANTINOPLE, March 24.—Reouf Pasha, Osman Pasha and General Ignatieff arrived here this evening. They will make a formal and ceremonious entry into the city to-morrow, and have an interview with the sultan. It is not yet known in what capacity General Ignatieff returns to Constantinople.

A Russo-Turkish Alliance.

LONDON, March 24.—The czar has not absolutely declined to grant the concessions asked for by Reouf Pasha, but has made his assent dependent upon conditions which is believed to be a Russo-Turkish alliance. It is asserted that Reouf and Osman favor such alliance. There is, however, a strong pro English party which opposes it.

Not yet Requested to Quit.

ST. PETERSBURG, March 24.—*Agence Russe* says the statement that Russia has requested England to withdraw her fleet from the Sea of Marmora is premature.

Massacre of Women and Children.

ATHENS, March 24.—It is reported that the women and children massacred by the Turks in sacking of the Thessalian villages of Olympia, Espana, Catria and Litochori, number [illegible] request of the British representative at Athens, has dispatched a vessel to ascertain the truth of these reports.

England must Yield

ST. PETERSBURG, March 24.—The *Journal de St. Petersburg* says England must yield her wishes to Europe and cease obstructing a definite conclusion of peace, or the congress must meet without England, or otherwise Russia must act alone.

The Insurgents Blockaded.

LONDON, March 24.—A dispatch from Volo says the Turks are blockading the insurgent villages of Mt. Actium by land and sea. Greece threatens to send ships to rescue the starving inhabitants if the powers don't interfere. Greek interference would certainly cause war.

Russia Forced to Occupy Constantinople.

LONDON, March 24.—A correspondent at St. Petersburg learns from good sources that no formal representation will probably be made for the present about the presence of the British fleet in the Sea of Marmora, but Russian troops will not embark now as was intended. Influential and moderate politicians remark that fear of England's policy will force Russia to occupy Constantinople and drive the sultan from Europe.

Belligerent Russians.

The correspondent adds: The only hope of peace is in a speedy assembling of the congress; that hope, however, throughout Russia is fast fading, and bellicose excitement is intense, even in St. Petersburg.

The Very Latest.

LONDON, Monday, March 25.—The *Times*, in a leading article, says Lord Derby continues to insist that the whole of the treaty shall be submitted to the plenipotentiaries, but to guard against laying too much stress upon this formal point, he asked whether communication of the document to the several powers is equivalent to submission of it to the congress. Russia is understood to have replied that it is not. Thus she declines one condition on which our government will send a plenipotentiary to Berlin.

PACIFIC COAST NEWS.

CALIFORNIA.

An Opponent of Bulldosers.

SAN FRANCISCO, March 23.—At 2 o'clock this afternoon about 600 men had gathered in Horticultural Hall, in response to a call for a meeting issued by C. P. Duane. At half-past 2 o'clock Duane mounted the platform and stated that the object of the meeting was opposition to the Spring valley claim. In that connection he said that the matter was finally disposed of, as a telegram from Sacramento stated that the bill had been killed. Another object of the meeting was to show the citizens that they could hold a meeting without being bulldosed. He defied any bulldosers to get on the stage, and said he was prepared for them. At the other meeting a man named Dennis Kearney—["Three cheers for Kearney," yelled one of the audience, and a roar for Kearney followed.] "I don't care who you cheer," said Duane, "but I am glad to see—" A howl of derision followed, but Duane put a stop to the fun by adjourning the meeting, and the audience dispersed. Chief Kirkpatrick, Captain Short and a large posse of police were present, but there was no call for their services.

Ten-Mile Trot.

SAN FRANCISCO, March 23.—The ten-mile trotting match at Bay District track to-day, between Controller and Jack Stewart, for $1,000 a side, was won by Controller in 27:30.

Marine Disasters.

SAN FRANCISCO, March 24.—The schooner *General Miller*, Captain May, belonging to the Alaska Commercial Company, sailed from this port February 10th for Alaska, having as passenger Colonel Woods, U. S. collector of customs for the territory of Alaska; a day or two ago the schooner was discovered bottom up a few miles up the coast and is now being towed into port; all on board undoubtedly lost. The vessel and cargo was valued at about $50,000.

The schooner *J. P. Havens* sprung a leak and sunk yesterday forty miles off Tomales. The crew took to the boat and were picked up by the tug *Millen Griffith*, which was out cruising for the capsized schooner *Gen. Miller*.

Must Resign or be Hanged.

SAN FRANCISCO, March 24.—Workingmen held their usual meeting at the sand lots to-day. Only about one thousand were present, on account of the unpleasant weather, a fine rain falling most of the day. Kearney and his lieutenants indulged in their customary declamation, including a reiteration of their intention to hang Senator Bones unless he resigns.

Suicide.

John Lange, aged 19, son of the ordnance sergeant at the Presidio, suicided by shooting himself through the heart, on the sidewalk, corner of Kearney and Sacramento streets, about 5:30 this morning. Cause, whisky and a melodeon girl.

NEVADA.

The Flooded Mines.

VIRGINIA CITY, March 22.—The Hale & Norcross pump, after being run slowly since Sunday evening, when the new pump below the 2,400 foot level was connected with the rod and started up a fast speed. Saturday morning, as a consequence, the water in the Savage and H. & N. mines was lowered thirty feet during the 24 hours ending at 7 o'clock this morning. At that time the waters had been lowered to about 80 feet below the 2,000 foot level in the Savage and 75 feet below the same level in H. & N. This is several feet lower than the water has been since the flooding of the mines, and there is every likelihood that the 2100 foot level will be reached and drained by the end of next week. The water is now where it will be most troublesome, owing to the proximity of the source of supply, but no extraordinary difficulties are expected, as the head is believed to be well conquered. The donkey pumps are kept in readiness for use, so that in case an accident happens they can without delay do effective work.

In Pay Ore.

It is rumored on the streets to-day that the Sutro tunnel is in pay ore.

The Great Walking Match.

LONDON, March 23—1 P. M.—Twelve minutes after 12 O'Leary's score was 420 miles, Vaughn 486, Brown 443, and George Ides 381. All the contestants were on the track at that hour, great distances separating them. O'Leary seemed much distressed, but was walking steadily. Vaughn appears fresh and running.

5 P. M.—Scores in pedestrian match at 4 o'clock: O'Leary, 505 miles; Vaughan, 483; Brown, 453.

O'Leary Wins.

At nine o'clock the international pedestrian contest came to a rather sudden close. At seven the score showed O'Leary 516 miles, Vaughan 497, Brown 472. O'Leary still had one good leg. Vaughan completed 500 miles at 7:38 and gave up the struggle. O'Leary walked until 8:10 when he had made 520 miles and two laps 420 yards further than the best performance on record. Brown walked until 8:20 scoring 477 miles and two laps. Ide also walked till 8:30 scoring 405 miles and four laps. O'Leary was then declared winner amid playing of national airs and boundless excitement and enthusiasm.

LONDON, March 24.—O'Leary wins the pedestrian contest. All the other competitors abandoned the track about 8 o'clock, leaving O'Leary victor. O'Leary walked until 8:10 P. M. when he had completed 500 miles and two laps. Vaughan retired at 7:38 P. M. having completed 500 miles. O'Leary was declared winner amid boundless excitement.

Meeting of Cotton Operatives.

LONDON, March 23.—A meeting of cotton operatives was held in the exchange at Blackburn to-day. Two thousand were present besides delegates from manufacturing towns and villages of Northeast Lancashire. Resolutions were carried unanimously [illegible] cent. reduction, pledging the workmen to accept a rate of wages equal to that in towns where reduction was recently accepted, declaring if employers persist workmen will resist to the utmost any reduction except with corresponding reduction in working hours. The meeting adjourned till April 3th, and meantime deputations will urge masters to resort to short time in preference to reduction of wages.

Rossini's Widow.

PARIS, March 23.—The widow of Rossini, the celebrated musical composer, is dead. It is understood she bequeathed the fortune inherited from Rossini to an asylum for aged and destitute singers.

German Finance Ministry.

BERLIN, March 23.—Herr Hoffman has declined the ministry of finance. It is said Herr Hofrieht, chief burgomaster of Berlin, has accepted.

German Politics.

The lower house to-day began the debate upon the supplementary estimates required for organic changes in the ministry. Bismarck vigorously supported the measure and declared that unless a different administration of railways is instituted he will not remain in power. The debate adjourned until Wednesday.

A Violent Gale.

LONDON, March 21.—A violent gale with snow prevailed here to-day and extended throughout England. It was particularly severe at Liverpool.

The Olympia *Standard* says the hop growers of the Puyallup valley are making their usual preparations for cultivating and harvesting this year's crop, despite the low prices which proved so disastrous to most of the yield of last season. The loss on the last shipments was from one to two cents on the pound.

There will be an effort made to locate and open a road from the head of tide water on Coos river to Cole's valley in Douglas county. This route would greatly shorten the land route between Coos bay and the valley.

WRECK OF THE EURYDICE.

LONDON, March 24.—A report has just been received here that the British training ship *Eurydice*, with four hundred men on board, capsized on the south coast of the Isle of Wight.

The admiral commanding at Portsmouth telegraphs the following particulars received from the coast guard at Ventnor: "The *Eurydice* capsized off Dunnose head, at half-past 4 o'clock this afternoon, in a sudden squall. One boy and a seaman were saved." Other advices indicate that between 300 and 400 lives were lost. The admiral, on receiving news of the disaster, immediately dispatched a steamer to the scene of the wreck. The *Eurydice* was a training ship for ordinary seamen, under command of Capt. Marcus A. S. Hare. She was sixth rate and carried four guns.

A survivor of the *Eurydice* disaster gives the number on board as over 300. Five were picked up by a passing schooner after being in the water over an hour, but all have died except two. It is not probable any others were saved as a strong ebb tide was running. The *Eurydice* was under full sail when she was overtaken by a snow storm accompanied by a heavy squall. The sun shone again brilliantly shortly afterwards but nothing was then visible except a few boxes floating down the channel. The survivors say they saw the ship sunk down, many as she sank.

THE TERRITORIES.

The juveniles of Olympia have been having the fun of a masquerade ball.

Miss Tillie Piper, of Seattle, knows more about true orthographical combinations than any of 'em, and proved it at the spelling school.

Gen. McDowell telegraphs that forts Hall and Lemhi are not within his jurisdiction. The disarming of the Bannocks was by order from the department of the Missouri.

Mr. E. B. Presery of Tumwater, has more knowledge of the playful circular saw than he had this time last week; but the knowledge was bought with the loss of two fingers and some other mutilation of the hand.

The Fort Townsend *Argus* reports that Chas. Bell, of Chimacum valley, was found dead on the 14th. He was lying on his back in a few inches of water, where it was supposed he had lain for 22 hours. He was a native of England, and 39 years old.

The eighth annual fair of the Washington industrial association will be held on their grounds, near Olympia, commencing on the third day of October, and continuing ten days. The gates will be open for visitors on Monday, the seventh of October.

Seattle *Dispatch*: Henry B. Emery is the regular Democratic candidate to the constitutional convention from the council district embracing the counties of Kitsap, Snohomish and Whatcom. He is said to be well qualified for the position, a graduate of Bowdoin college and of Harvard law school.

The Seattle *Dispatch* says Delegate Jacobs might just as well know now that the people of Washington will hold him responsible for failure to pass the enabling act for formation of a state government, should the act fail. But that won't make much difference with Jacobs. He is dead anyhow, and wouldn't dare to offer himself for another nomination.

The Daily Oregonian.

MONDAY MORNING, MARCH 25, 1878.

ENTIRELY APPARENT.

The supporters of Senator Mitchell, who are pushing him for re election, greatly deceive themselves if they suppose his untiring support of the Union and Central Pacific companies on one hand, and his extreme hostility to the Northern Pacific on the other, can pass unnoticed by the people of Oregon. More than that of any other state, it is the interest of Oregon to join in compelling the Union and Central Pacific to make restitution to the government; for Oregon is the only state of the whole thirty-eight which has not railway connections, and as her remoteness makes it necessary that large aid shall be secured from the government in order to obtain a railway, it becomes in the highest degree important that the greed of those powerful companies be not permitted to stand in the way of proper aid for ourselves. If government were protected against the prodigious loss it is likely to incur through the work of these companies it is probable there would be little objection even to a bond subsidy for a northern road. But the fact, as shown by Senator McDonald, that the country is likely to lose $95,763,913 by one of these companies, and $69,031,012 by the other, making a total of $164,793,925 in cash, to say nothing of the land grants squandered upon them, is a standing and invincible argument against all who ask further aid. The scandal of this unprecedented job is aggravated by the knowledge that the profits of the companies are enormous and that there is no reason, except their own rapacity and avarice, why they should not make suitable provision for liquidation of their debts. It comes home to the people of the isolated northwest with double force when it is observed that here is the real root of all the hostility manifested in congress and by the press of the country to our appeals for railway aid.

The great monopoly wants to hold its present advantages. One part of its policy is resistance of payment to government out of its annual profits of millions. The other part is prevention of aid from government to construct other railroads across the continent. The effort making in the senate to prevent the passage of the judiciary committee's bill to bring the monopoly under control corresponds exactly with the effort to divide the support which is necessary for the success of any road for the northwest. One part of the scheme enables the monopolizing corporations to keep what they have; the other part staves off the construction of a competing line. This is the situation for the people of Oregon to consider. They are thinking about it. The briefest statement of it suffices to show why the course taken by Senator Mitchell is so directly opposite to the true interests of Oregon. If it were expressly designed to retard the development of the state it could not be more effective. Of all the states Oregon ought to be and actually is the one most anxious to break the tyranny of the present monopoly, which is fighting to keep its millions and to defeat the construction of any rival line. To this end all resources ought to be concentrated. And the senator whom the state shall next send to Washington, whether he be Republican or a Democrat, should be a man whose position on this matter is unequivocal. It is the business of Oregon to contend for a railroad for herself rather than for the claims of the huge monopoly that wants to prevent the building of every other road across the continent.

DOCTORS DO NOT DISAGREE.

It is singular, indeed, that there should be so much difficulty over this matter of exemption of greenbacks from state taxation. Decisions of the supreme court on the subject are as clear as anything can be; and the laws of congress, besides, are plain and unmistakable. Greenbacks are government bills of credit and the right to issue them is an incident of the government's power to borrow money. The states cannot constitutionally tax this power, and therefore cannot tax greenbacks or national bonds. Some have been puzzled over the inquiry whether debts payable in greenbacks are taxable. Undoubtedly they are, for reasons we have endeavored to state heretofore. Government simply exempts its paper from state taxation. It does not follow up transactions of which this paper may be made the basis, and exempt from taxation property represented in them. The only purpose, be it observed, in exempting government's paper from state taxation is simply protection against interference of government's right to borrow money. This right is no way limited or impaired by taxation of debts payable in greenbacks. The *Standard* comes now with a statement that there is "a very nice point in this greenback question," and it wants to know whether a man indebted in greenbacks can take such indebtedness from his assessment. We see no nice point about it. It is perfectly clear that such indebtedness is to be deducted. The person who holds the evidence of the debt should be assessed for its value and required to pay taxes upon it. All the trouble that arises from this question springs out of failure to see clearly and to keep in mind the sole reason why greenbacks, which are simply pledges of national credit, are not subject to state taxation. The reason [illegible] changing the ownership of property between individuals, based on them. It is rather strange that there are those who appear to be utterly unable to get out of the fog with which they are needlessly surrounding the subject. The *Standard* entitles its article, "Doctors Differ." But among those who understand the subject there is no difference of opinion; and when papers like the Jacksonville *Sentinel* and Coos Bay *News* try to maintain that greenbacks are taxable, they only show that they have not given the subject examination, have consulted no competent authority upon it, do not understand the grounds on which the evidences of government's indebtedness cannot be taxed, and perhaps do not even know that greenbacks are a pledge of national credit and part of the national debt. If anybody wants to make a case on this for the courts he will learn that the doctors do not differ at all.

Discussion as to probable result of the silver bill continues. Eastern journals still teem with it. One feature of the discussion now is the inquiry how far Secretary Sherman can use the silver act as a help to resume specie payments after 1st January next. It is now understood that silver will not be hoarded, but will be put into circulation as fast as coined. But the new dollars will move for a time in a very limited circle. The treasury will pay them out for bullion, then the importers will get them, and they will go right back to the treasury. Thus for a considerable time they will be a subject of traffic only between the government, the bonanza people and the importers. No great quantity of them can get into circulation so as to begin to take the place of greenbacks till a good while after next January. Meantime the certainty that the value of silver dollars must decline as soon as these dollars become abundant will prevent an equalization of greenbacks with gold, because the greenbacks will be redeemable in silver as soon as silver coin becomes plentiful enough. There might have been resumption on a gold basis by next January. Now it is likely to be put off longer, and when it does come it will be on a silver basis.

The Boise *Statesman* says "a majority of the business men of Portland as well as of the people of Oregon have expressed a preference in favor of Senator Mitchell's bill, which provides for the construction of both the Northern Pacific and the Salt Lake roads." This is misalleged of the business men of Portland and the people of Oregon generally; because they know that the bill, though professing to provide for construction of both, actually makes no provision for construction of either. Therefore they have not expressed a preference for it. If so great an undertaking as a railroad to Oregon is to be accomplished they have judgment to know that it must be done not by dividing and scattering resources, but by concentrating and combining them; not by imposing hostile restrictions, but by affording all possible aid.

In the effort to compel the Union Pacific to "prorate" with the Kansas Pacific the former has now won a victory, so a dispatch states. Apart from the injustice of this on general principles, there is a special reason why the result is to be regretted. It may now be feared more than ever that Chapman will not be able to compel Mason to "prorate." If so our great labors in a great cause will have been altogether lost.

Here Probably are the Facts.

[From the Seattle Dispatch.]

A maniac, writing under the *nom de plume* of "Shy Low," from Kittitas valley to the Portland *Standard*, and who was formerly a correspondent of the *Tribune* of this city, indulges in half a column of balderdash about Moses, the "great" chief of the Yakimas; speaks of his nobility of character, intelligence, and all that, when in fact he is one of the most miserable scrubs in the territory, and so are his "brave warriors." Moses is no different from the rest of his kind, and is too lazy to work, but not too honest to steal. He is known to be a murderer and a horse thief by every old settler in the valley. In fact, with few exceptions, the whole crowd are as miserable and worthless a set of dogs as ever breathed the air of heaven. Their highest ambition is to go tearing over the sagebrush on the back of a half-starved cayuse, while the squaws stay at home and do all the work. Its no use talking, an "Ingin is an Ingin" everywhere, and the Yakima Indians are no better than the rest of them. This we know, because we have been "ther." Shy Low to the contrary, notwithstanding.

Great Difference whose Ox is Gored.

[From the Eugene Guard.]

The remarkable versatility of Senator Mitchell finds fitting illustration in his speeches on the proposition to extend the time for the completion of the Northern Pacific, and a bill reported a few days since by the committee on railroads, which, although reported under the name of a compromise, Mr. Thurman characterizes as providing for a new subsidy to the Union and Central railway companies almost equal to that already granted. In the former he was vehement in his denunciations of "the greed of corporations" and their swelling influence in public affairs; in the latter he simpers over the proposed invasion of vested rights by another bill to which he refers; talks about the interests of peace, as though these corporations were too formidable for the government to risk a contest, and so tenderly does he regard their interests that he is in great trepidation that congress may make some declaration which might possibly prejudice their rights before the courts. What a wonderful difference it makes whose ox is gored.

Columbia River Bar.

[From the Astorian, 23d.]

Some time since we mentioned that the south channel had shoaled some four feet. This is true of the part of the channel then used. But more recent soundings have shown that in another part of the south channel there is nineteen and a half feet of water at mean low tide. There has been found in the north channel twenty-eight and a half feet of water at mean low tide. For the benefit of those jealous Sound people who have lately been berating the Columbia bar, we will say that any vessel which has ever entered the Straits of Fuca can cross the Columbia bar in safety; even the *Great Eastern* could at high tide and smooth weather, cross the bar in the north channel.

Very Natural and Satisfactory.

[From the Olympia Transcript.]

The Boise *Statesman*, for the purpose of ridiculing the governor of Idaho, draws a comparison between the governor of that territory and the governor of Washington territory, in which he smothers the latter all over with sugar and steam. It goes out of the way, however, to say that the press of this territory generally are loud in his praise. Such is not the case, except to those who hang on his coat tails for pickings and his personal organ in this city. The effort of the latter is like a man boasting of his own exploits, and has about the same effect.

Important Announcement.

SPRING GOODS!

IN ADDRESSING THE PUBLIC ON THIS OCcasion we do so with more confidence than at any time since our advent into business. Our career in business has been singularly successful, having attained a degree of enviable notoriety for straightforward dealing; selling goods at a slight margin on importers' prices.

Our STOCK for the Spring Trade is one of the best selected and the most comprehensive ever before offered to the people of Oregon—bought on the most advantageous terms, and embracing every line in the trade.

In disposing of this immense Stock our conduct shall be guided by the same golden rule as heretofore—**Honest dealing and the Smallest Living Profits.**

Our patrons embrace a large number of the Northwestern population, and in sending out our

SPRING GREETING

we hope to see or hear from all our old friends, and as many new ones as wish to avail themselves of this opportunity of purchasing goods cheaper than ever before offered in the Metropolis of the Northwest.

Our facilities this year have been peculiarly favorable for purchasing, having through our friends of the Bay City had the chance of picking up special lines suitable for this market, at prices for which manufacturers could not begin to produce them. This in a great measure is caused by the almost general stagnation of business in the leading markets of the United States, and more directly affecting the Pacific States, from the hard times they have had and are having in San Francisco. The consequence is the merchants there must unload their heavy stocks, and in many cases at a great sacrifice.

Fully realizing the situation, our MR. KERRON launched out and purchased an

IMMENSE STOCK!

More than in ordinary times he would have been justified in buying; but the low prices he obtained them at will enable us to spread them over this State and the Territories at such a reduction on old time prices as will convince the most skeptical that we mean business, and business we

Must and Will Do!

It would be useless attempting to give a List of Prices. Space does not warrant it. But we shall forward samples to any of our country friends who send for them.

The public in dealing with us can place implicit faith in the fact that the lowest prices are asked. All Goods are marked in plain figures, from which there can be no deviation; thus placing the inexperienced on equal terms with the experienced in the purchase of goods.

Our country friends would do well to reap the advantage of an early inspection of our Warehouse. It is incumbent on us to make room. We are crowded, and we must move goods off, to make way for fresh contracts to arrive by every Steamer during all April.

We have advices of a shipment of Goods from Glasgow direct, now fully due and daily expected,

MONDAY MORNING, MARCH 25, 1878.

CITY.

DEATH OF MR. DAVIES.—Mr. L. Davies, an old and well known citizen of Portland, died at his residence Saturday afternoon from the effects of a paralytic stroke. For some days past Mr. Davies had not been enjoying good health, but no apprehensions were entertained either by himself or family. Friday evening he complained of not feeling well and retired to bed about 11 o'clock. During the night Mr. Davies was attacked; he was struck speechless and helpless, and up to the time of his death never uttered a word nor appeared conscious for a moment. Several physicians were summoned, and everything possible was done to alleviate the unfortunate man's condition, but without avail. He lingered along until late in the afternoon and then passed away. Mr. Davies has resided in Portland for a number of years. He formerly lived in Victoria. For some time he was engaged in the saloon business in this city. Deceased was an honorable man in all the relations of life, a quiet citizen and a kind husband and father. He leaves a wife, two daughters and four sons to mourn his loss. [illegible] depart from the walks of men. The bereaved family have the sincere sympathy of the community in their sad loss. Mr. Davies was a respected member of Hassalo Lodge and Ellison Encampment, Independent Order of Odd Fellows, and also the order of B'nai Brith. The funeral took place yesterday afternoon from the residence of the family, on Fourth street. The remains were buried in the Beth Israel Cemetery, which lies beyond the southern limits of the city. The funeral cortege was unusually large.

ANEURISM.—Sometime last fall Mr. James Liddy, the well known hack driver, met with an accident in which he received a severe contusion on the inside of the right leg above the knee. The limb gave him considerable pain and trouble, but did not lay him up. He continued to work until a few days ago, when he was compelled to cease labor. The blow he had received (a kick from a horse) had, it seems, seriously involved one of the larger arteries of the leg, and last Saturday the blood vessel was ruptured. The aneurism was a very serious affair, and Dr. Jones was summoned immediately, who at once stanched the hemorrhage. The limb was examined, and it was deemed necessary to perform a surgical operation—to take up the artery. Several of the prominent physicians of the city were called in consultation, and the delicate and dangerous operation was performed. Mr. Liddy was, at last accounts, in a weak and rather critical condition, but strong hopes are entertained of his recovery.

SCHOOL ELECTION.—Next Monday—April 1st—the annual school election of district No. 1, will be held in this city. The polls will be opened at the corner of Alder and Third streets, opening at 2 o'clock P. M. and closing at 6. The election will be held for the purpose of electing one school director to serve for one year and a clerk to serve for a similar period. On Monday, April 8th, there will be an annual meeting of the tax payers of the district held at the court house at 7:30 o'clock, P. M., for the purpose of hearing a report of the board of directors and clerk, and also for the purpose of levying a tax for support of the schools for the ensuing year, and for levying a tax for the purchase of real estate and erecting buildings thereon, and for the transaction of any other business that may come before the meeting.

PARDONED.—Henry Elkeles, who was indicted, tried, convicted of the crime of larceny, and sentenced to the penitentiary for one year at the present term of the state circuit court, was conveyed to Salem last Saturday. Strenuous efforts were made by a number of persons who had become interested in the young culprit's behalf to secure a pardon. They were successful, and on arriving at the penitentiary, Young Elkeles found a pardon awaiting him. He came back on down train, and took the steamer *Idaho* yesterday morning for San Francisco. One condition on which the pardon had been granted was that Elkeles should leave the state. It is to be hoped the severe lesson may have a life long effect on the young man in directing and correcting his future course of conduct.

THE SAME WOODS.—The Col. Woods, collector of customs for Alaska, reported lost in the wreck of the schooner *General Miller*, referred to in our dispatches this morning, is probably the same Woods known here as Capt. Woods of the revenue service in connection with the schooner *Ocean Spray*, captured, as he stated, in Alaskan waters by him single handed and alone. He brought the *Ocean Spray* to this port in August, 1876, with a crew of about 25 Indians. After the judicial proceedings the schooner was confiscated and the crew sent back to British Columbia. The seizure was made for some alleged violation of the revenue laws.

CHARGED WITH SODOMY.—Saturday afternoon a young Chinaman was arrested under one of the wharves on the charge of sodomy and conveyed to the police station. When arrested the Celestial was in the act of committing the unnatural crime named. Attracted by the cries of the victim, a lad about eight years of age, several persons ran to the rescue and arresting the Chinaman turned him over to the custody of the police. When the case was called in the police court the Celestial waived an examination and was held to await the action of the grand jury in the sum of $800. In default of bonds the prisoner will be committed to the county jail.

CHURCH ENTERTAINMENT.—An entertainment of a social, musical and literary character will be given by the ladies of the Baptist church of this city on Tuesday evening of this week. No effort will be spared to make the evening one of enjoyment for all who attend. The "Modern and Mediæval Ballad of Mary Jane" will be presented during the evening, which will be found new and entertaining. An admission fee of 25 cents will be charged at the door. Coffee and cakes will be served without extra charge.

GUILTY AS CHARGED.—Argument by the opposing counsel in the state circuit court in the case of State vs. Moy Luke, the Celestial charged with the crime of kidnapping, was concluded Saturday. Judge Shattuck delivered his charge to the jury and the case was given. About 8 o'clock in the evening the jury brought in a verdict of "guilty as charged in the indictment." The attorney for the defendant was allowed until next Monday to file a motion for a new trial.

NEW CATHEDRAL.—We understand that a meeting was held yesterday, composed of prominent members of the Catholic church of Portland, the object being to take some steps toward raising the funds necessary to construct a large and commodious cathedral. The sum of $12,000, it is stated, has been subscribed toward securing the desired object, and a much larger sum, it is thought, can be raised. Work will probably be commenced ere long on the proposed church edifice.

HALF FARE RATES.—C. B. Bellinger, Esq., chairman of the Democratic central committee, announces that the Oregon Steam Navigation Company have kindly offered to pass the delegates to the Democratic state convention, to be held in Portland on the 10th prox., from any point on their route for half-fare. Delegates will be charged full fare to the convention, and return on a certificate from the officers of the convention.

THOROUGHBRED HORSES.—A San Francisco dispatch dated the 23d says: Nathan Coombs, Jr., left yesterday by the steamship *Elder* for Portland with eleven fine thoroughbred horses, which he intends running in the summer meetings of Oregon. Among the most celebrated of them are Shannon, full brother of Mollie McCarthy, 3 Cs and Hardie.

STEAMER ELDER.—Last evening a dispatch from Astoria brought intelligence that the steamer Geo. W. Elder had arrived there. She reached Astoria at 6:30 P. M., and will sail from there at 4:30 o'clock. Her arrival may be expected here this afternoon.

LECTURE AT THE DALLES.—Rev. Mr. Eliot will deliver his lecture on Athens at The Dalles Tuesday evening, and that on Florence Wednesday evening of this week.

CITY.

[illegible] of Mr. Davies.—Mr. L. Davies, [illegible] and well known citizen of Portland, [illegible] at his residence Saturday afternoon from [illegible] effects of a paralytic stroke. For some [illegible] Mr. Davies had not been enjoying [illegible] health, but no apprehensions were entertained either by himself or family. Friday evening he complained of not feeling well and retired to bed about 11 o'clock. During the night Mr. Davies was attacked, [illegible] struck speechless and helpless, and [illegible] time of his death never uttered a [illegible] appeared conscious for a moment. [illegible] physicians were summoned, and every[illegible] possible was done to alleviate the [illegible] man's condition, but without [illegible]. He lingered along until late in the [illegible] then passed away. Mr. Davies [illegible] in Portland for a number of years. [illegible] lived in Victoria. BUSINESS NOTICES.

By recent arrivals Messrs. Fishel & Roberts have received large invoices of new goods which Mr. Roberts purchased during an extended stay in San Francisco. Mr. R. has had an opportunity to select nothing but the very best materials, having taken time and trouble to give the matter his full attention. We glanced through the store on Saturday and were satisfied the stock is the largest in the city. With their large and well assorted line the firm are enabled to supply the wants of all customers and at exceedingly moderate rates. Examine the stock.

Particular attention is called to the new advertisement, found in another column, of Messrs. Kerron & Macbeth. Their large store and wareroom is at the corner of Yamhill and Second streets, where will be found a new and large stock of dry goods. The firm has advices of a shipment of goods from Glasgow direct, which is now fully due and expected. The stock comprises Aberdeen winceys, white and self moleskins, corduroy, Scotch lawns, lawn handkerchiefs, Forfar linens, Barnsley table linens, Irish linens, Balbriggan hosiery, Scotch tweeds, Nottingham lace, etc., etc. Messrs. Kerron & Macbeth also deal extensively in groceries, dry goods, hats, boots and shoes. Read their announcement and do not fail to give them a call.

WILLOW WIELDERS.

Saturday afternoon the first match game of the season was played at the grounds in East Portland. The participants were a nine from this side of the river against the same number from East Portland. The game lasted two hours and a half. Victory perched on the banner of the East Portland club, the score standing 22 to 10.

Plowing Wet Soil.

On this subject the Sacramento *Record-Union* presents remarks which are equally as good at this time for Oregon as California. It says:

The temptations to plow soil before it is sufficiently dried out are unusually great this season. However, for the good of the soil itself, these temptations should all be firmly resisted. We work soil when wet to make brick of, and we puddle soil to stop leaks in water troughs and to make water-proof levees, but we should remember the plant growth requires the soil light and porous, and not packed and puddled. If wet soil be plowed and worked the air cannot circulate through it properly, and the fertilizing qualities it possesses are thus fixed and rendered useless till time and exposure shall again set them free. Not one crop but many are often destroyed by imprudent haste in plowing when the soil is too wet. If the soil is wet, that moisture will remain in it longer or later in the season. Therefore it is best to wait till it is in proper condition before starting the plow. Better spend some time and labor in digging ditches to drain off the water, and thus hurry its drying, and thus permanently benefit it, than by plowing while wet, and thus permanently damage the soil.

A Troublesome Matter.

[From the New York Tribune.]

An explanation of the remarkable speed of one of the newly discovered moons of Mars, is undoubtedly needed. The trouble with this satellite is that it goes around its primary about three times as fast as the latter revolves on its axis. Unless the circumstances can be specifically explained, we must bid adieu to the nebular hypothesis—which very few astronomers would be quite willing to do at present. Prof. Doolittle, of the coast survey, has recently urged as a satisfactory explanation, a theory to the effect that the little moon has had its orbit shortened by the impact of meteorites.

Roseburg *Plaindealer*: T. A. Walker, who lives about 11 miles south of here near the South Umpqua, reports that on Monday last he and a young brother about 12 years old, killed four bears and captured one, and have him confined at their house now. They also killed two deer and one catamount. If this isn't a good day's work we should like to know what is.

Lightning is very unusual in Oregon. But the other day at Roseburg Russell's restaurant was struck, the lightning descended the stove pipe just as the proprietor was lighting his pipe at the stove, which operation was suddenly suspended. His little girl near the stove was thrown down and somewhat hurt. The concussion gave a report like that of a small cannon.

Speaking of ex-Senator Nesmith and his acknowledged ability, the Salem *Record* says: If there be one spark of gratitude in the Democracy, they will endeavor to draw him from his retirement and offer him the highest honors at their bestowal. Colonel Nesmith is a man of force of character—he has worked his way up from an humble position to one of high honor and usefulness, and should be treated and esteemed accordingly.

A CARD TO DR. R. F. PRICE.

I, William Waterford, duly sworn, state on oath that I have suffered from chronic catarrh of the bronchial tubes and asthmatic affections for the last four years; have been under treatment of several of our best doctors in Portland and received no benefit from them. I consulted in January last Dr. R. F. Price, of this city. The doctor promised a radical cure and, I am happy to say, has cured me. Not only has he cured the bronchitis, but has restored me to perfect health. I feel better now than I have felt for the last ten years. Therefore with great confidence I recommend him to all requiring the assistance of a thoroughly qualified physician, knowing he will not disappoint those he takes in hand to cure if they follow his directions.

DR. C. M. WOOD, MAGNETIC PHYSICIAN.

Another Wonderful Case Cured by Animal Magnetism.

I wish to make the following statement in justice to Dr. C. M. Wood, and suffering humanity. On Nov. 15, 1876, I had the misfortune to be shot in the face by a pistol ball, and on Dec. 2d my jaws became set so that I could not open them but one half an inch, and at no time could I open them further than one-half of an inch. Physicians and surgeons all told me I could not regain the natural use of my jaws. I spent $500 in the hope of getting relief, all to no effect. Three weeks ago I attended Dr. C. M. Wood's lecture in Reed's opera house, and was operated upon by him in presence of the audience, and cured in five minutes by a few passes of his hand, so that my jaws are well and I can open them as wide as I ever could, free from pain.

A Cure in Five Minutes.

SALEM, April 22, 1876.

To the Citizens of Salem and vicinity: Being well known in this country, I am desirous of making known a wonderful cure which I received at the hands of Dr. C. M. Wood. Four years ago I had my hip joint dislocated, since which time I have suffered untold misery night and day, from a contraction of the cords and muscles. I have never been free from it until three weeks ago, when I attended Dr. Wood's first lecture in Reed's Opera House, and was treated and cured by him in five minutes, and am happy to state that I have been perfectly free from the pain from that time to the present.

ITEMS FROM THE MINTS.

The Philadelphia *United States Gazette* publishes the following items about the United States mint in that city:

The two-cent pieces were abolished five years ago.

There are five times as many one-cent pieces used as threes.

Less than $10,000 of one-cent pieces were coined last year.

No fives or threes (nickel) were coined last year for circulation.

The eastern, middle and western states take most of the nickel and bronze coins.

No silver is coined in subsidiary coin for depositors. The government coins for itself alone.

In the south the people are now using one-cent pieces and threes and fives very extensively.

Five times as many five-cent pieces as ones are sent away, and five times as many ones as threes.

When business is brisk in Philadelphia about $700 or $800 in change is required for nickel and bronze.

The government has issued over $38,000,000 of small silver coins since the redemption of fractional currency began.

There are lying in the depositories and vaults of the sub-treasury in Philadelphia nearly $800,000 in five cent nickel pieces.

Five cent pieces are circulated considerably in New Orleans. Pennies were recently sent to the city, which were the first ever called for.

The large number of early orders for small coins came from the southwest. Recent orders are chiefly from this section of the country.

The demand for one cent pieces has increased within the last three or four months, and the demand for fives has decreased. This is due to the issue of so many dimes.

Nickel and bronze are kept at par by receiving them in greenbacks. They are deposited in the mint in sums of not less than $20, receipted for, and checks sent to the depositor.

No silver five-cent pieces have been made for five years. In fact, they have been abolished, as well as the silver three-cent pieces. The nickel threes are still issued, although but few are used.

From $5,000 to $10,000 of eagles, half-eagles, quarter-eagles and three dollar pieces are made every year, in order to keep up the history of the coin. About $2,000 of ones are made annually for the same purpose.

The greatest demand for silver coins is for the half dollar. The quarter-dollar is the second favorite, and the dime is the third and last in the list. The demand for half-dollars is twice as great as for quarters, and five times more halves are required than dimes.

Washington Irving and Bayard Taylor.

[From the New York Tribune.]

There is a similarity in the circumstances under which Washington Irving was appointed and confirmed as minister to Spain, and Bayard Taylor as minister to Germany, not less remarkable than the points of resemblance between the men themselves and the training and habits which had fitted them for their respective posts. In each case a majority of the senate was not in sympathy with the president and had refused to confirm important nominations previously made by him. In each case the appointment to the diplomatic position was made entirely without the solicitation of the nominee. Mr. Irving was so utterly ignorant of the president's intentions that when sufficient time had elapsed after the appointment for the news to reach him, Daniel Webster, then secretary of state, remarked, "Washington Irving is now the most astonished man in the city of New York." In each case the nomination was received with hearty approval by the politicians of both parties and with universal applause by the people, and in each case the appointment was confirmed by the senate unanimously and almost as it were, by acclamation.

Just About How It Is.

[General H. V. Boynton's Letter to the Cincinnati Gazette.]

The situation at the end of the first year is not a pleasant one either for Republicans or the president. It is too plain to be conceded, even if it were expedient to shut it out of sight. It is something for the president and his friends and all Republicans to face and consider well, for the fault is not altogether with the executive, nor, on the other hand, is congress alone to blame. Nothing could have set the situation in a clearer light before the country than the action upon the veto of the silver bill. Words cannot make the fact plainer that the president is without practical support in congress, except as five Republican votes in the senate sometimes carry a nomination through with solid help from the Democrats.

Hard Times and England's Responsibility.

[From the Alta California.]

The London *Times* comments on the fact that business has been almost dead for months, and money at exceedingly low rates, and attributes such facts to the fear and anticipation by many of a coming war. People did not dare to go largely into business because of that fear or that anticipation. They could borrow money at almost nominal rates, but the risks of revulsion in consequence of the dreaded war acted like a chill upon business, and money went begging, and few takers. Great Britain has a large reckoning, a huge account with the business of the world, and she is on the debtor side of the books.

Simon Cameron's Piety.

[From the Chicago Tribune.]

We were called upon a few days ago to note the displeasure of the Pennsylvania politicians at the appointment of Bayard Taylor to the German mission. Not knowing anything else to find fault with in the distinguished appointee, they have assailed him through the Harrisburg *Telegraph* as a man of infidel belief. This sudden access of religious enthusiasm on the part of Simon Cameron's newspaper is much less surprising than it might be if the venerable ex-senator's piety were not so widely known.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer* and read his sign on his door, Room No. 7, Corbett's Block, over O'Connor's Store, corner of Front and Washington streets.

WASHINGTON CITY.

A Short Appropriation.

TON, March 24.—Secretary Schurz, interview upon the recent depredations, appropriation for the discovery and of timber depredators, reduced as to $5,000 by the senate, will, under circumstances, not be sufficient to the necessary testimony for trial of now pending in different states. instances it will be necessary, in to complete the testimony, to employ parties to retrace their lines where have been committed, so as to the government to show authoritative particular subdivision of public lands which timber has been cut, and this money. The preparation of this testi is the most imperative thing to be done The secretary continued:

It my duty, as an officer of the govern execute the laws by asking an appropria the prosecution of timber depredations, but makes that appropriation so small as to to a very limited sphere of action the considered as virtually a proclamation depredators of the country to go in themselves comfortable, as they are as government will no longer have the to interfere with them. What the act really to render the government unable to execute the justice and validity of which has never questioned until the present time. In my report to congress in relation to the efforts suppress depredations upon public lands I that the United States went into court as any to recover property wrongfully converted manner of proceeding in the enforcement of clearly pointed out in sections 914 and 915, statutes. There can therefore be no ques to the legal theory under which the gov had acted in executing existing laws; and they are not enforced for the want of it will not be my fault. I am glad to see press of the country appreciate this ques is almost unanimous on the side of law.

Legislative Judicial and Executive Bill.

March 25.—The house com on appropriations to day agreed to re legislative, executive and judicial ap bill without any material change provisions as prepared and submitted sub-committee last Friday.

A Bill to Quiet Title.

March 25.—The *Journal's* Wash special says: As a result of many con between Montgomery Blair and congressmen a bill will be intro in the house as soon as additional news from Louisiana, providing that States circuit and district judges shall in Washington and have the votes to them as returned to and not by boards of Florida and Louisi that these votes shall be counted and declared. Thurman and David Dudley are credited with the authorship of the

Corbin's Case.

attempt will be made to reopen Corbin until Sharon takes his seat, which he is to do within two weeks. Conover now to be ready to vote to unseat Butler. If so Butler will lose his

Consular and Diplomatic Bill.

March 25.—The consideration consular and diplomatic appropriation completed by the senate committee appropriations this morning and it was reported to the senate with important amendments. The effect amendments as generally stated is to salaries of all diplomatic and consular from the reduced amounts proposed cases by the house to amounts pro by existing law.

Comment on Howe's Speech.

March 25.—Senator Howe's in the senate attacking the administra or rather as he facetiously termed it, "ex the reasons why he has not given support to the president's policy," al a very large audience, but on the whole more interesting and effective than auditors expected. A great portion of it devoted to the oft repeated and tiresome of Louisiana affairs, and an attack on of a personal nature. It seems to be understood that Howe's speech was to draw forth some defense of the and to be one of a number of similar strations which are intended to drive president into the arms of Democrats, or him back into the ranks of his former friends. The Democratic senators have to keep silent, and leave the Re to quarrel.

The Presidio Park Bill.

Representative Horace Davis finding that house military committee will not ap the Presidio Park bill prepared by the Francisco municipal authorities and in by him, has obtained a promise of able recommendation both from the committee and secretary of war.
